CREATURE KIND

Engaging churches in new ways of thinking about Christian ethics, with a special focus on farmed animal welfare issues.

CreatureKind Course for Churches!

- Use our free six-week course for small groups
- Consider what Christian faith means for how we treat animals
- Learn the real history of animal welfare in the church
- Inspire your congregation to care for animals in impactful ways

The CreatureKind Course for Churches is an invitation for Christians to learn from each other about how to be the church that follows Christ into the reconciliation of all creatures.

Through videos, short readings, and lots of dialogue, the CreatureKind Course for Churches encourages Christians to consider what we believe about God's creatures and how we might move toward living out those beliefs as members of the body of Christ.
